INCENDIARY FIRES.

A Number Has Occurred in New York Lately.

MANY LIVES IMPERILED.

Fifty Families Placed in Jeopardy and Three Hundred People Escaped the Destruction Planned By the Fire Bugs. Startling Facts Revealed to the New York Police.

NEW YORK, March 24.—Following close upon the tenement house horror, in which four persons perished, and the East Twenty-ninth street tenement fire, which cost two more lives, with a strong suspicion that incendiarianism was the cause of each fire, came reports to the police of two clear cases of incendiary a third case almost as clear, and a fourth in which there is good reason to believe that such scoundrelly work was planned.

In all the lives of fifty-eight families, comprising probably 300 persons, were placed in jeopardy by these attempts, each one having been started in a tenement house. In only one case were there any arrests, but in this the proof seems to be positive, as a policeman by peculiarly good luck saw the would-be firebugs in the very act. This latter case occurred in the five story tenement numbered 210 Catharine street. The top floor of this building is occupied by Michael Schreder, John Strogenis and Andrew Maschrides, Polish Jew tailors, who slept and worked there. The policeman in question happened to see the windows of these apartments bloom with light. Then there was a sudden burst of flame which illuminated the interior of the room, and the policeman saw one of the tailors with a can in his hand, the contents of which he was emptying around the room, while the other two stood in the background. The officer started for the apartments, and when he reached there quickly smothered the fire with a mattress. The three tailors looked on without showing excitement or anxiety, and did not offer to assist the officer in checking the flames. They were arrested. They said they had up a lamp.

Another fiendish plot to destroy life and property was discovered in the tenement 235 East One Hundred and Twenty-first street, which is occupied by over one hundred persons. Charles Balz, a barkeeper smelled smoke when he went home at 2:30 a. m. He roused the inmates, and a search revealed the fact that a heap of rubbish under the stairs was burning. The plot evidently was to cut off escape by the stairs. The fire escapes are somewhat deficient. The inmates were horrified to find that the front doors of this and three adjoining tenements had been removed, so that the people would have been trapped like rats.

Another case was that at 212 East Sixty-first street. A policeman saw smoke coming out of a cellar at 2 a. m. The several colored families in the house were aroused. It was found that fire had been kindled in a coal bin, and also in a pile of wood in another part of the cellar.

A fire was discovered Saturday afternoon in the cellar of the tenement, 843 Eleventh avenue. It was near some oil barrels, and doubtless incendiary. A tenant located the fire in time to save the building and its occupants.

The Brooklyn incendiaries are still at work. Sunday night a fire was found to have been kindled under the stairway in the basement of the tenement, 929 Myrtle avenue, occupied by several families. It was a store room, which is generally kept locked. The lock had been broken. The people in the house were panic-stricken, but all got out safely and the fire was extinguished without doing much damage.

Another incendiary fire was reported to the police last night. The landing and walls on the second floor of the four-story tenement house, 62 East One Hundred and Thirtieth street, had been saturated with kerosene oil and set on fire. The families in the house were awake at the time and the fire was put out before it gained any headway. The damage was small.

Newark also has its fire bugs. Late Sunday night fire was discovered on the second floor of the tenement, No. 31 Boyd street, Newark. The flames rapidly communicated to two adjoining tenements. There were about a dozen Polish families in the three tenements. There were many narrow escapes, and two persons who are missing are supposed to have perished in the flames. The buildings were burned out. The floor in which the fire was discovered was occupied by Solomon Epstein. His apartments, it is said, had been saturated with oil. The police are making an investigation.

Firebugs Confess.
BOSTON, March 24.—Fred. Valincow, Leon Philenti, Jr., and Bert Johnson, who were arrested yesterday on charges of having set fire to several places in town and breaking and entering a number of stores, have confessed that the gang to which they belonged fired and burglarized a number of places. The three prisoners, who are under 16, were held in \$1,000 in Salem.

Two Men Injured in a Wreck.
COSHOCTON, O., March 21.—The limited mail No. 7 on the Pennsylvania line ran into the rear of a freight train at Conesville, eight miles east of Coshocton, because the freight train had broken in two just as it was making the siding. John Dickinson, the fireman, was seriously injured, and also Engineer Oscar Farrow. Both injured men were taken to their homes at Columbus.

Called West.
BLOOMINGTON, Ind., March 24.—Dr. David S. Jordan, president of the Indiana University for the last seven years, has been offered the presidency of the famous Leland Stanford, Jr., university, of Palomar, Cal., and has accepted. The salary is \$10,000 per year.

LOUISIANA LEVEES.

Destructive Break in the Upper Part of the State.

NEW ORLEANS, March 24.—The Concord, or old Boss, levee, in east Carroll Parish, in this state, broke yesterday morning at 8 o'clock, and rapidly increased in width and depth all day. It is not thought by the engineer here that there is any chance of closing it, and as the levee was composed of light sandy dirt it is feared that it will wash badly and cause a great deal of damage. The break, the first in the levees in the upper portion of the state, is twelve miles north of Lake Providence and not far from Pecan Grove crevasse of last year, which was one of the most destructive that occurred here.

It will flood much the same country, portions of East Carroll, Madison, Tensas and Concordia parishes, the water returning to the Mississippi by way of Black and Red rivers, and some valuable cotton land in the track of the water will be submerged. Another bad effect will be to greatly prolong the duration of the high water on the lower river, and thereby increase the chance of other breaks. The Concord levee was an old one, but had been raised and strengthened this year. Yesterday Mr. Richard-on, chief of the state board of engineers, stated that the greatest danger was over, and that there was every reason to hope for escape from further crevasses.

Destitute Workmen.

PINE BLUFF, Ark., March 24.—Owing to the failure of the Cypress Lumber company at Serrill, a most pitiable condition of affairs exists. When the mill closed 150 men were thrown out of work, and as none of them had received a dollar pay for their work in several months they are in a destitute condition. The mill owes the men all the way from \$50 to \$600 each. Now that the failure has occurred they get nothing to live upon. It is understood a meeting of the creditors of the company will be called to try and come to a settlement.

The Grip in Pittsburg.

PITTSBURG, March 24.—The prevalence of the grip in Pittsburg and Allegheny has become a matter of serious alarm. Physicians are overworked and hospitals are crowded to their full capacity, largely on account of the epidemic. Medical authorities say that the number of cases now in this city is larger than at any time during last year's epidemic and name 5,000 cases as an approximate figure. The death rate for the past two weeks has been unusually large, and to grip and pneumonia is charged the increase.

Immigrants Arriving by Thousands.
NEW YORK, March 24.—On five steamers that arrived Sunday from European ports there were 3,143 immigrants. It will take the immigration officers two whole days to pass this army of men, women and children through the barge office, and before they are all sent their various ways the chances are that more immigrants will arrive to keep them busy. During the next thirty days it is estimated that 30,000 or 40,000 immigrants will arrive.

Arctic Explorer Returns.

WINNIPEG, Man., March 24.—W. W. Pike, an English explorer, has just returned from the Arctic circle where he has been for the past two years hunting musk, oxen and buffalo. His party underwent terrible suffering in their journey, being lost at one time for fourteen days without any food. The weather was terribly cold, as for six months in the year the sun never shines in that region.

Another Prize Fight Fatality.

SAVANNAH, Ga., March 24.—Robert Willink was knocked down by Byrne Murphy in an amateur prize fight at the Athletic club's tournament here and died from concussion of the brain. Willink was 18 years of age. He was the son of Henry F. Willink, owner of the Savannah Marine railway.

Injured in a Runaway.

KANSAS CITY, March 24.—A runaway horse attached to a buggy, both belonging to Senator William Buchanan, chairman of the Kansas state Republican committee, ran over Mrs. John Wolfe of 504 East Eighteenth street at noon yesterday and fractured her skull. Mrs. Wolfe's injuries are believed to be fatal.

Long Walk Almost Ended.

POUGHKEEPSIE, N. Y., March 24.—Miss Zoe Gayton, who is walking from San Francisco to New York on a wager arrived here at 3:45 yesterday afternoon, having walked twenty-three miles yesterday. She was greatly fatigued but expects to reach New York on Friday.

Fredly Has the Rheumatism.

NEW YORK, March 24.—Mr. Fred. Gebhard is very ill with inflammatory rheumatism at the house of his sister, Mrs. Neilson, 100 Fifth avenue. His condition has become so serious that a priest has been called in and the physicians are unable to say whether or not Mr. Gebhard will recover.

Infringements of Patents.

NEW YORK, March 24.—The Brush Electric Light company, of Cleveland, O., has begun suit in the United States circuit court against the American Electric Arc Light company, of New York, for alleged infringement of patents. An injunction and accounting was asked for.

Burned to Death by an Explosion.

JERSEY CITY, March 24.—An explosion occurred about 1:40 o'clock yesterday afternoon in the yard of the Tide-water Oil Refining company, at Constable Hook, by which three men were burned to death and two others fatally burned.

Church Burned.

NEW ORLEANS, March 24.—St. Paul's Episcopal church, corner of Camp and Gannia streets, was destroyed by fire yesterday afternoon. Loss estimated at \$45,000, insurance \$35,000.

DARING ROBBERY.

Two Citizens of Laporte, Indiana, Badly Used Up.

THE DEED DONE IN A CATTLE CAR

While Walking Along the Track They Were Seized By Three Burly Ruffians, Thrown Into a Cattle Car, Robbed and Then Thrown Off While the Train Was Moving.

CHICAGO, March 24.—John Wilson and Henry Mathews, two respectable citizens of Laporte, were seized by three burly ruffians while they were walking to their homes, a few miles outside that city, about dusk Sunday evening, and thrown into an empty cattle car, which was on its way to Chicago, attached to the regular cattle train.

The train stopped, but started as soon as the daring deed was committed. The ruffians threw the men to the floor of the car and robbed them of their valuables which they only succeeded in taking after a desperate struggle. The robbers sprang upon their victims, and over and over they rolled, each man fighting for supremacy. The noise of the rapidly moving train and the cries of the huddled up cattle drowned the shouts of the men for help.

Wilson and Mathews, who were big and strong, fought desperately for their lives, but the three robbers were too much for them. After a battle of nearly half an hour they were hurled from the rapidly moving train and left lying bruised, bleeding and unconscious by the roadside. Two hours afterward they were found and conveyed to a neighboring house, where they were revived. As soon as their story was learned the Chicago police were notified, but so far no arrests have been made. The wounded men were taken to their homes. They are both seriously injured, but not necessarily fatal.

MANSFIELD'S MYSTERY.

The Injured Drummer Identified as O. F. Chauncey, of Alexandria, Va.

MANSFIELD, O., March 23.—O. F. Chauncey, the man who was injured in a runaway accident last Wednesday and who has remained unconscious ever since, has been identified.

The Cleveland press yesterday morning contained a brief interview with George F. Gorham, of that city, who said: "From the description of the man I think he is O. F. Chauncey, of Alexandria, Va., where his father is now living." Mr. Gorham further stated that he had met Chauncey about two months ago in Pittsburg and that Chauncey claimed to be a traveling man, but he did not know who Chauncey was traveling for.

Acting upon this clue, Landlord Bird, of the Hotel Von Hof, telegraphed the chief of police of Alexandria that a man named O. F. Chauncey had been seriously injured by an accident in this city, and that it was believed Chauncey's father lived in that city. He asked that the authorities in that city report. At 1 o'clock yesterday afternoon the following telegram was received:

ALEXANDRIA, March 23.
Telegraph full particulars of accident and condition of my son.
J. F. CHAUNCEY.

SWITCHMEN STRIKE.

The Company Gives in and the Men Return to Work.

CHICAGO, March 24.—The switchmen employed on the Chicago and Northwestern railroad in this city went out on a strike at 6 p. m. yesterday, but returned to work a few hours later, the company conceding their demands. The trouble was caused by the discharge of Switchman Rowe last Saturday by Yardmaster McInerney.

Yesterday a committee from the Switchmen's union waited on the officials of the road, and claimed that Crowe had been discharged without cause and demanded that he be taken back before 6 p. m., and McInerney discharged. These demands not being complied with at 6 p. m., the switchmen in the city yard struck, but after being out a few hours the company yielded to the demands of the men, took Crowe back and discharged McInerney. Passenger trains leaving Chicago on that road were delayed about forty-five minutes.

VERY PECULIAR.

The Perrien Kidnapping Has an Accompanying Men Which May Bear on It.

DETROIT, March 24.—The excitement over the abduction of Joseph Perrien last week has brought out particulars of another mysterious disappearance from Perrien's residence about Christmas time. The missing person is a former servant of Perrien's, named Carolina Beck.

Her brother has called at the miller's residence from time to time to try to get an interview with his sister, but without avail, as the family have always put him off with excuses that the girl was ill or away from home. A reporter got hold of the story yesterday, and secured an interview with Perrien, who admitted having knowledge of the girl's whereabouts, saying she was in one of the city's institutions, and adding that the police had the particulars of the case. The circumstance is regarded as peculiar in view of last week's events.

Sherman Homestead for Sale.

NEW YORK, March 24.—The home where Gen. Sherman died is to pass out of the hands of the Sherman family. P. Tecumseh Sherman, the veteran warrior's youngest son, has been invested with full authority by the heirs of the general to dispose of the house, No. 75 West Seventy-first street. The instrument giving the authority for the sale was filed in the register's office here yesterday.

FITZSIMMONS' DEFENSE.

He Will Claim That His Wife Was Assaulted By the Two Detectives.

PITTSBURG, March 24.—Fitzsimmons, the murderer of Detective Gilkinson, was brought from Homestead and lodged in jail in this city yesterday. Mr. and Mrs. Clark at whose residence in Homestead the murderer was discovered Sunday night, together with Miss Wyatt a sister of Mrs. Clark, have also been arrested as accomplices. It is said that a large quantity of missing plunder has been found in the Clark residence. When the detectives searched Fitzsimmons' house, they found papers showing that Frederick C. Fitzsimmons had recently fallen heir to property in Brockville, Ont. County Detective Beltzhoover sent telegrams to Brockville seeking the history of the man who had murdered Detective Gilkinson Saturday night. The answer came promptly and read: "Frederick C. Fitzsimmons is at his home in this place."

Detective Beltzhoover was dumbfounded and said: "If Frederick C. Fitzsimmons is in his home in Canada, who is the man we have here in jail?"

The mystery thrown around the prisoner by the receipt of the telegram has not been penetrated. The opinion of the officers is, however, that the murderer had stolen the papers from the Canadian owner, and had assumed the name of the man to whom the papers rightfully belong. It is also currently reported that "Fitzsimmons" has confessed to the murder of Margaret Douglas in McKeesport last May, for which crime Eddie Myers, a nephew of the murdered woman is doing time in the penitentiary in this city.

Fitzsimmons and his wife have retained counsel and have prepared a defense on the ground that he was sleeping in bed, was awakened by an outcry and seeing two men assaulting his wife, he shot at them. He will claim that a man's house is his castle and that Gilkinson and Murphy had no right to force entrance to his house so suddenly.

PRIZE FIGHTER KILLED.

Fatal Tragedy in a Cincinnati House of Ill Fame.

CINCINNATI, March 24.—Louis Bezinah, the well known light-weight prize fighter, was shot and mortally wounded yesterday evening by Frank Duger, alias "Kid" Dugan, a sneak thief and pick-pocket, who eludes in St. Paul, Minn.

The shooting occurred in a George street house of ill fame, kept by May Riley. Duger had been her lover, and when he called at her house yesterday evening the woman declined to see him. He went to her room and drew a revolver and fired at her twice, one shot taking effect in the back of her head and the other in her arm. Bezinah, who was present at the time attempted to grapple with the man, but two shots from Duger's smoking pistol laid him low. The fifth shot struck another woman in the mouth, knocking out her teeth.

A patrol wagon was summoned and the wounded man taken to the hospital. The woman's injuries are not necessarily fatal, but Bezinah, it is not thought, will survive the night. He is shot in the breast and bowels. Duger was arrested and locked up at the Central police station. Bezinah has an excellent record as a pugilist, having won thirty-five battles in the ring and never lost one. Muldoon has a forfeit of \$200, posted in this city, that Bezinah could whip any man of his class in the world, barring Jack McAuliffe and Billy Meyer.

Made Sure of Death.

BRIDGEPORT, Conn., March 24.—M. W. Moorehouse, aged 39 years, of Greenfield Hill, committed suicide Sunday by shooting himself. He took to bed with him Saturday night a double-barrelled shotgun and a razor. Sunday morning he sat up in bed, pressed the triggers with his toes and both barrels were discharged into his breast. Despondency over the recent death of his wife was the cause.

Driven to Suicide.

PROVIDENCE, R. I., March 24.—Herman Bodes, aged 40, bookkeeper of the Providence Dairy company, whose oleomargarine factory was seized last week, committed suicide by shooting himself yesterday. It is not known whether Bodes was short in his accounts, but he was accused by some of the workmen of wrong-doing, and this had evidently preyed upon his mind.

Ministers on the New Orleans Riot.

CHICAGO, March 24.—At the meeting of the Methodist ministers Monday, the committee appointed to prepare resolutions expressive of the sense of the society upon the recent New Orleans lynching, presented a report, sympathizing with the New Orleans people, and only mildly condemning their resort to lynch law. The resolutions were tabled for one week.

Largest Soap Concern in the World.

HOUSTON, Tex., March 24.—A new soap manufacturing company with a capital of \$1,000,000 has been organized in this city. It proposes to establish plants in Houston, New Orleans, and other southern cities in the cotton belt, to cost from \$50,000 to \$200,000. When fully established it will be the largest soap manufacturing concern in the world.

Tenement Houses Burned.

NEWARK, N. J., March 24.—Three tenements on Boyd street were burned last night. They were occupied by about a dozen Polish families. There were many narrow escapes and two persons who are missing are supposed to have perished in the flames. The fire was of incendiary origin.

Business Houses Looted.

CANTON, O., March 24.—Thieves looted a number of business houses Sunday night. R. Eohlen, tailor, had \$800 worth of goods taken, and several other places suffered small losses. Entrance in all places was effected by prying the doors and windows.

GOOD AND SUBSTANTIAL BARGAINS IN DRY GOODS!

BRIGHT, NEW, FRESH GOODS---NO OLD STOCK!

AT THE BEE HIVE

Children's Fast Black Hose 5c. a pair, worth 10.

ROSENAU BROS., Props. Bee Hive.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

TUESDAY, MARCH 24, 1891.

Koch's lymph has joined Brown-Sequard's elixir. It has been demonstrated they are n. g.

KENTUCKY maintains her high rank as the breeding ground for fast horses. In 1890, out of the 371 races recorded, Kentucky-bred horses captured 195; while notwithstanding the boasting of California, that State only furnished seventy-one winners.

A CLOSING-OUT sale was advertised in this paper last week. It commenced on Wednesday afternoon, and the rest of that day the cash sales averaged \$1.50 a minute. The house has had a rushing trade ever since. It pays to advertise in the BULLETIN.

SOME of the members of the Capital Location committee are accused of taking snap judgment on their brethren in reporting in favor of Frankfort as the seat of the State Government. While this report was signed by a majority of the committee present, yet it was not signed by a majority of the committee. Two of them were away from Frankfort at the time. Of course Lexington's kicking. The papers up there declare it was a scurvy trick to keep them from getting the capital.

PENDING some bits of extravagance in the late Congress, Congressman Herbert tells this: "Some years ago there was a bill before the California Legislature in relation to an increase in salaries, and the question was involved whether the treasury was in condition to stand it. One of the members excused himself for a few minutes, and when he returned said: 'Mr. Speaker, I am just from the Treasurer, and he tells me there is \$375,654.49 in the State treasury, and I move you, sir, that we rake her.'"

WHEN a bank can run along for years while in insolvent condition and finally beat its depositors out of a cool million dollars, it is high time to amend the laws governing such institutions.

The latest from the failure of the Schwartz bank at Louisville places its liabilities at nearly \$1,000,000 and it is now said they will only pay 2 cents on the dollar.

The members of the firm have known for years that their bank was insolvent, and it looks like there is some law to punish them for defrauding the people out of so much money. If there isn't, there ought to be.

"MAINE Republicans don't want the Australian ballot. Seventy-four of the members of the House of Representatives of that State voted against the system. They have heard how 'free elections' just across in Vermont and New Hampshire resulted in Democratic victories."

The above appeared in the BULLETIN last week, but the Covington Commonwealth turns about and credits it to the Maysville Republican. The C. C. will have to be a little more careful hereafter, or he will get Brother Davis in trouble and have the Republicans of this State and the Postmaster General after him.

Coal and Gas as Fuel.

The subject of fuel gas has been occupying considerable attention here of late, and the following from C. T. Prichard, in the last issue of the Scientific American, will therefore prove of interest:

"The fuel gas business will not revolutionize the heating business, as enthusiasts would have us believe; and this is so because of cost. If a person burns tons of coal during a winter to heat his house, he will apply 260,000,000 heat units to this purpose. To obtain this heat from illuminating gas of 20-candle power, at 700 heat units per foot, would require 370,000 feet; if from fuel gas, of 320 heat units per foot, it would require 812,000 feet—the waste heat going to the chimney would be substantially the same in either case. With coal at \$6 per ton the cost would be \$60; with illuminating gas at \$1 per 1,000, the cost would be \$370; and with fuel gas at 50 cents, \$406. The extra cost is so excessive that no one seriously thinks of house heating or of steam boiler heating by a distributed gas.

"On the other hand, if he wishes to boil two quarts of water (about four pounds), it would require not less than five pounds of coal from the beginning to the end of the operation, costing one and one-half cents, while two feet of gas, costing two-tenths of a cent, would do the work much quicker and with less labor expended.

"Between these extremes are an infinite number of operations, the smaller ones showing a profit for gas, always with decreased labor. This percentage of profit gradually decreases as larger quantities of heat are required, till no economy is shown, and their profit appearing on the other side till the extreme is reached, in continuous operations requiring large amounts of heat.

"Nothing new has been developed in fuel gas, unless it be negative results as to the commercial success of distributing it in towns and cities. Even in manufacturing plants it shows but little economy, but it has shown that it is a much better fuel, and that by its aid a better quality of goods can be produced.

"No proofs have been given that a unit of heat can be produced and distributed in the shape of any of the so-called fuel gases cheaper than by illuminating gas."

It is but right to add that the company now being organized in this city proposes to use a process recently invented, that they claim greatly lessens the cost of gas.

Addams is a Candidate.

Green B. Addams, brother of Mrs. W. W. Longmoor, announced his candidacy for the Clerkship of the Court of Appeals yesterday in the following card:

To the People of Kentucky: I hereby announce myself a candidate for the Clerkship of the Court of Appeals, which office has been made vacant by the death of Mr. W. W. Longmoor. In seeking this position, I am actuated neither by a desire for its emoluments, or by any aspirations after preferment. If elected, I shall ask and receive only the compensation I now receive as deputy in the office, and I shall faithfully report and pay over to Mr. Longmoor's widow (my sister), every dollar which Mr. Longmoor would have earned from the office had he lived. It is to protect her interests and from no other consideration that I ask your suffrages. It is her claims, not mine, I present. If your generous support will enable me to perform this act of justice, I shall conscientiously and to the best of my ability discharge the duties imposed upon me.

GREEN B. ADDAMS.

Attention, Sir Knights.

There will be a conclave of Maysville Commandery No. 10, K. T., this Tuesday evening at 7 o'clock. Order of Red Cross will be conferred. A full attendance is desired.

R. L. BROWNING, E. C.

A. H. THOMPSON, Recorder.

Hypnotized Against Whisky.

The eldest son of Bonanza Millionaire Fair has been cured of drinking by hypnotic power. The process was precisely the same as employed in the case of Carroll Cook, a well-known local lawyer. Young Fair was hypnotized so successfully that whisky, which he formerly loved not wisely, but too well, is positively nauseating to him now.

Young Jimmie Fair is notorious in 'Frisco as a high liver. For years his pranks have kept his father busy getting him out of scrapes and devising means of reform. About three months ago young Jim reached the end of his rope. He came near dying at the German Hospital, and the physicians warned him that further indulgence in liquor would prove fatal. So he went to Dr. Brown, who is noted for his hypnotic power, and after several weeks the doctor regards his cure as complete. He has also operated on Charles Fair, a younger brother, and cured him. Ex-Senator Fair said to-day:

"My son Jim came to me about six weeks ago and said: 'Papa, I've taken my last drink of whisky.' Now he had said that to me many times before, and I treated it lightly. I was incredulous. But when he did not drink that day nor the next, I was surprised. I don't quite understand it yet, but when the boy came home night after night, after he had been exposed to the temptations of a lot of companions that would lead him astray if they could, and when I saw that he had not tasted a drop of liquor of any kind I was surprised completely. It seems that the smell of whisky makes him sick. It's the same with his brother Charles, and I think they're both cured." —San Francisco correspondent St. Louis Republic.

Real Estate Transfers.

Mary F. Duvall to Richard J. Gaither, 25 acres of land near Lewisburg; consideration, \$2,000.

Messrs. Geo. W. Cravens and Richard Moore raised on 12½ acres of land the past season 22,745 pounds of tobacco. The land was rented from Aaron Farra at \$45 per acre and was surveyed by County Surveyor Hifner. They sold their entire crop at 10 cents per pound, or \$2,274.50.—Woodford Sun.

OUR NEIGHBORS.

JERSEY RIDGE.

Miss Jennie Pigg is visiting her sister at Chillicothe, Ohio.
Mr. Nathan Sidwell has returned from Missouri after a short stay.
Miss Anna Fristoe began a select school in Charleston Bottom Monday.

Mr. Lon Pigg is suffering from a severe case of poisoning caused by working amongst oak vines.

We had some regular spring fever days last week, and the farmers put in their time sewing plant beds and plowing.

Prospects were never better for several weddings, and by the way the old bachelors are beginning to take heart again.

A farmer in Charleston Bottom is authority for the statement that the rate are so plentiful down there that they eat up his cats.

Rev. S. A. Day, the evangelist and sweet singer will begin a protracted meeting at Old Stone Church on next Saturday night.

Sunday morning as Mr. Ben Marsh was going to church his horse scared at some obstacle at Jake White's tollgate and threw Mr. Marsh out of the cart and then ran to the Christian Church, about a mile. The animal circled around the church several times, when some one caught him. No damage done.

Sunday evening a wild looking couple passed through here. They told several that they were going to Aberdeen, and how they were well prepared, having a bottle of whisky between them and the groom that was to be had a large pistol in one hand and a whip in the other. The old horse looked like he had come a hundred miles. Late in the evening they were seen coming back, looking as happy as coons. We have no doubt but that they found Aberdeen.

JOHN DAVIS and Mollie Long, a colored couple of this city, were married at Aberdeen Sunday.

THE hop announced to be given by the Maysville Assembly Wednesday night has been postponed until some time next week.

SUBSCRIBE for stock in the first series of "The People's Building Association," which will commence business in a few weeks.

THE Daily of York, Pa., says: "Dr. Hedley's lecture was one of the grandest treats York has had for years. The entire audience was charmed."

DR. JAMES HEDLEY, who is pronounced the greatest platform orator of the West, will lecture at the opera house next Monday night on "The Sunny Side of Life."

THE Frank Owens Hardware Co. have a full stock of the very best quality of galvanized barb, galvanized plain and plain annealed fencing wire. Call on them.

POWER & POLLITT's horse sale is in progress to-day at the latter's stable on West Third street. Quite a crowd is in attendance. Robert Hudson, of Flemingsburg, is auctioneer.

THE Diamond lens spectacles and eyeglasses are ground with scientific accuracy, and produce a brightness and distinctness of vision not before attained. For sale by Ballenger, the jeweler.

THE "Hathaway" fence wire is the most complete thing of the kind ever made. Can be used for fencing, gates, summer houses, arbors, trailing vines, &c. Frank Owens Hardware Company, agents.

REV. DR. BOLLING, of Covington, is expected this evening to assist Rev. J. E. Wright in the meeting at the M. E. Church, South. All are cordially invited to hear him. Dr. Bolling recently closed a successful revival at Louisville. There was one addition to the church here last night.

REV. C. F. ONEY has sold his interest in the Kentucky Methodist to T. H. Morris, late of the Nelson Record. The Kentucky Methodist will be moved from Lexington to Louisville, and will be enlarged, improved and will be published by Mr. Morris and Rev. H. C. Morrison, a well known evangelist.

ON May 3, 1890, Miss Fannie Dishman, a young lady of Lexington, married N. S. Hill, a fruit tree agent. She had known him only a short time. She wishes now that she had not been so hasty in linking her life to the fellow, as he turns out to be a grand rascal. He had a wife at Dayton, O., at the time of his second marriage.

THE next lecture under the auspices of the Lyceum Bureau will occur next Monday night, when Dr. James Hedley will talk on "The Sunny Side of Life." The New York Tribune says: "The address was full of bright things, and was punctuated with outbursts of applause from beginning to end." Tickets now on sale at Nelson's.

THE SPIRIT OF IMPROVEMENT.

Browning & Co. Keeping Right Along With the Procession—Their Store Second to None.

The spirit of improvement, especially of the business houses of a town or city, is usually the precursor of its growth and consequent prosperity.

These improvements by enlarging, remodeling and beautifying, are not only in themselves evidences of present prosperous conditions, but ordinarily they are made necessary by the demands of increasing business, requiring additional room, greater and better facilities for the accommodation of the growth of trade, and for its successful and profitable conduct.

We may note with pride many such improvements that have been made in our city in the recent past. In every instance, these betterments have been made at the hands of demand for more and better facilities.

What makes this demand? We answer: The growth of trade and more prosperous conditions.

Coming up in the progressive alignment on this basis, the improvements and enlargement of the dry goods store of Messrs. Browning & Co. is the latest and one of the most marked and needed of the kind of which we are speaking. These have been made by Mr. S. N. Meyer, owner of the building, from designs by Mr. R. L. Browning, senior member of the firm.

Recognizing the fact that they must have more room, as well as increased facilities, made necessary by a business fast growing beyond their capacity to take care of in their house as it was, they made known their necessities to their landlord, who at once purchased a business house adjoining them in the rear, in order to meet their requirements, tearing this away to make room for an extension of their house, of forty feet, with a thirty-foot ceiling, splendid skylight and rear glass lights, changing it as if by magic into the perfection of a dry goods room, if such a thing is attainable. They now have a retail room one hundred feet in depth, remodeled and refitted in handsome style, with every thing spick span new, and in all its appointments second to no retail dry goods store in the West. It is lighted by both gas and electricity, and by night makes a most handsome showing.

No reference has been made to the increasing jobbing trade of this house, which is another very large straw, which not only indicates the direction of the wind, but the force with which it is blowing our way.

Such are some of the sure indices of brighter and better days for Maysville.

Forest Home Anniversary Dinner.

The annexed card in fair round calligraphy was received at Desha Valley reporter's office: "Miss Nancie and Dr. W. W. Dye request the pleasure of Colonel J. B. Herndon's company at a birthday dinner, Wednesday, March 18, at 2 o'clock. Forest Home, 3, 13, '91."

The coincident anniversary celebrating the birthday of the eldest son and second daughter of Mr. and Mrs. Hiram Dye occurred as above. Covers for twenty-four were laid and the menu was superexcellent—every detail of the cuisine from the roast turkey to the "angel's food" being perfect, reflecting credit on the catering skill of Mrs. Hiram Dye and Mrs. David Dye.

Dr. Dye was assigned the foot and Miss Nancie the head of the table, the parents on the right and left sides. The spread was a thing of beauty. In the center of the table were placed the two large birthday cakes, on the top of these in raised figures, done in icing, "19-42," indicating the respective ages of the honored parties. A suggestive and pretty conceit.

The guests were: Misses Lizzie Varde-man, Pearl and Em. Grover, Bettie Yancey, Fannie Maddox, Dr. Dye, wife and son Willie Fitzgerald, Jos. S. Clarke, wife and son, D. Dye, wife and son; Mrs. Robinson. Miss Maggie Dye, off at school, was the only absentee.

This was a family gathering with a throw of "rosebuds" to impart flavor and spice to the variety; and we trust but typifies the larger re-union of this happy family where feastings will be without excess and banquetings without alloy—beyond the skies.

The evening's entertainment closed with some lovely operas from the young hostess, whose voice is like the sweet music of a rippling brook. As one remarked, "Miss Nancie always sends her friends home with delightful impressions."

THE Frankfort correspondent of the Lexington Leader says: "Judge Samuel J. Pugh, Lewis County's delegate in the Con. Con., offered a section to the report on general provisions, which if adopted, would have been hailed with delight by everybody interested in public roads. The effect of his proposition was to do away with the present system of working roads, and to keep them up by some system of taxation. He made a good fight for it and it was defeated by a very close vote."

ALMOST BIT OFF HER TONGUE.

The Bright Little Daughter of Mr. and Mrs. Chas. Reed Meets With a Peculiar Accident.

The bright little three-year-old daughter of Mr. and Mrs. Charles Reed was playing about the home of the family a few miles from this city yesterday afternoon, when she met with a peculiar and very painful accident.

She was laughing and running about the house when she tripped and in falling caught her tongue between her teeth. She struck with such force that the tongue was terribly lacerated and part of it was almost bitten off.

The unfortunate little one suffered greatly. Drs. Owens and Strode were summoned and after administering chloroform sewed the parts of the tongue together and dressed the wounds.

The patient was doing as well as could be expected at last accounts.

Herndon's Hundred Bonny Brides and Bridesmaids.

"I would like to see artistic pictures of each of the brides and bridesmaids—" "That fair female troop thou sawest, that seemed Of goddesses, so blithe, so smooth, so gay," that you have met in parlor and at the alter in your large and varied experience and assisted reportorially in launching on the placid sea of connubial bliss," said a vivacious lady to the BULLETIN's Desha Valley reporter recently.

"I heartily join you in that wish," replied the veteran scribe, conjecturing at once what a galaxy of splendid miniatures and photos he would have!

On this hint he spoke and resolved to gather them all in, at least one hundred, and place them in a fine album for his own personal delectation—to cherish them as a "holy prize," and in the end bequeath them as a rich legacy to his posterity. "It would be a valued souvenir," the lady continued, "of the eventful past, leaving to the holder of the album tender memories

"Of smiling and confident gallants,
 Of women all beauty and bloom."

We will add that we are authorized to say to the brides and bridesmaids that any pictures sent will be highly treasured by our Desha Valley representative, and their receipt will be greatly acknowledged in a special note to the donor. His post-office address is Sardis, to which all contributions must be sent.

Railway News.

The Louisville and Nashville has just issued a handsome map covering the Kentucky Central lines.

Beginning April 1, the C. & O. will run their vestibule trains through from Cincinnati to Washington.

The personally conducted excursions on the C. & O. to Old Point Comfort and other points, which were so popular last summer, will be run again this summer on June 23, and July 14, August 25 and September 15, the number of passengers to be limited to 100.

Bromley Acquitted.

Mr. John Bromley, who was charged with cruelly treating John Sloan, an eight-year-old boy, at the cotton mills last week, was tried yesterday afternoon before Mayor Pearce. The testimony showed that Bromley had not mistreated the boy as charged, and he was promptly acquitted by the Mayor.
